November 17, 1987

To the Honorable Cecil D. Andrus, Governor,
and Members of the State Legislature of
the State of Idaho

The Annual Report of the State of Idaho, for the fiscal year ended June 30, 1987, submitted herewith includes financial statements and other supplemental information in accordance with Idaho Code section 67-1104. Responsibility for both the accuracy of the presented data and the completeness and fairness of this presentation, including all disclosures, rests with the Office of the State Auditor. Nothing has come to my attention that causes me to believe the data, as presented, is not accurate in all material aspects. I believe the financial position and results of State operations as measured by the financial activity of its various funds are fairly stated, except as noted.

This year's financial statements have not been audited by an independent CPA, nor are they in accordance with Generally Accepted Accounting Principles (GAAP). It is my intention that statements are to be in conformity in the years ahead.

The State of Idaho's current accounting system is in need of improvement due to the changes in governmental accounting practices and the increased demand to readily retrieve financial information for the State's policy makers and managers. One example of current deficiencies that exist is that no formal balance sheet is available from the present accounting system, therefore as State Auditor, I am unable to adequately disclose information related to the State's assets such as investments, taxes receivable, intergovernmental receivables (i.e. federal grants), inventories, and property, plant, and equipment, as well as its liabilities to vendors, employees (for unpaid salaries, vacation leave, etc.), and other debt.

November 17, 1987
Page 2

I will continue to ask for your assistance and cooperation in addressing these issues and in implementing the appropriate solutions.

Should you require additional State financial information, I will be pleased to furnish it upon request.

Sincerely yours,

Joe R. Williams

Joe R. Williams
Idaho State Auditor

STATE OF IDAHO
Notes to Financial Statements
For the Year Ended June 30, 1987

1. Summary of Significant Accounting Policies:

- A. Reporting Entity - The Governmental Accounting Standards Board believes that the reporting entity should be broad enough to include all governmental activities, organizations, and functions necessary to achieve the desired objectives of comparability, comprehensiveness, responsibility and control. Although such objectives have not been clearly defined by policy or statute, the accompanying financial statements include the various departments, agencies, and other organizational units governed by the Legislature and/or constitutional officers of the State of Idaho. Not all funds which exist in these various entities have been adequately disclosed in these financial statements.
- B. Basis of Accounting - All funds are maintained and reported by the State Auditor on a modified cash basis. Under this basis of accounting, revenues and transfers in are recorded when received, expenditures or expenses (as appropriate) and transfers out are recorded only when cash is disbursed, and anticipated expenditures may be recorded as an encumbrance, in accordance with Idaho Code, Section 67-3521.
- C. Account Classification - Revenues and expenditures, as defined by Generally Accepted Accounting Principles (GAAP), cannot be adequately identified under the present accounting system. Since no balance sheet accounts formally exist in this system, cash is more accurately recorded as receipts and disbursements. Due to the lack of such information, these statements are not intended to present the financial position, nor the results of operations, in conformity with GAAP for governmental entities.
- D. Double recording of Receipts and Disbursements - The State Auditor accounts for monies from a variety of sources located within and outside the State of Idaho. Some funds receive monies and then transfer them to other funds. Double accounting of these monies takes place when all of the funds are combined for reporting purposes because these types of transfers are not eliminated. Consequently, these statements show receipts and disbursements as being overstated.

2. Analysis of the General Account

Changes to the FY 1987 General Account Appropriation are as follows:

1. Original FY 1987 Appropriation	\$615,914,100
2. Positive Supplemental Appropriations	7,623,900
3. Receipts to the appropriation, per I.C. 67-3516(4)(C)	122,793
4. Increased spending authority for Military, per I.C. 72-928	825
5. Reappropriations (carry over of FY 1986 spending authority)	736,132
6. Transfer of FY 1986 Public School Appropriation (S.B. 1492)	10,521,300
7. Rotary fund transfers	9,000
8. External Tax Anticipation Note expense	143,000
9. External Tax Anticipation Note interest	6,580,000
Adjusted FY 1987 Appropriation	\$641,651,050
	=====

3. Tax Anticipation Notes:

Per Idaho Code Title 63, Chapter 32, the State Treasurer, upon approval of the State Board of Examiners, is authorized to borrow money in anticipation of income or revenue from taxes. Such borrowing is for the current fiscal year only, and is limited to no more than 75% of the income or revenue which is reasonably anticipated to be collected during the current fiscal year.

Internal Tax Anticipation notes were issued on November 26, 1986 for \$31,000,000, December 26, 1986 for \$20,000,000, March 11, 1987 for \$28,000,000 and April 10, 1987 for \$21,000,000, for a total principal amount of \$100,000,000, and each note was redeemed shortly after its issuance. No interest expense was incurred, since the monies borrowed were from funds, other than the General fund, which are on deposit in the State Treasury.

External Tax Anticipation notes were issued on July 3, 1987 in the principal amount of \$140,000,000. These notes were redeemed on June 30, 1987. The interest incurred was \$6,580,000 with estimated additional expenses incurred of \$143,000.
