## **The Legal Basis Financial Report**

The Legal Basis Financial Report provides the reader with an overview of the appropriations approved by the Idaho State Legislature, adjustments to those appropriations, and the corresponding expenditures and encumbrances made against those appropriations. The Legal Basis Financial Report is intended for specific use by Idaho State Legislators, Executive Branch Officers, Budget Analysts, Agency Directors, Fiscal Officers, and other financial professionals participating in the fiscal operations of the State. This report is also used by the Government Finance Officers Association (GFOA) for the certification of the Comprehensive Annual Financial Report (CAFR) to show legal compliance to the budget.

## **Layout of the Report**

The Legal Basis Financial Report consists of two sections. The first section is the Introductory Section. The Introductory Section contains the Reader's Guide, Table of Contents, State Controller's Letter of Transmittal, and a list of Constitutional Officers of the State of Idaho. This section begins with page i and continues through page vii.

The second section is the Financial Section. The Financial Section contains the Legislative Services Office Report, Notes to the Financial Schedules, Summary Financial Schedules, Detail Financial Schedules, Appendix, and Alphabetical Index to the Detail Financial Schedules. This section begins on page 1.

The Notes are an integral part of this report. The Notes include significant accounting and budgeting policies, an overview of the budget process, definitions of terms, and other essential information. The reader should review the Notes as thoroughly as the financial schedules. The Notes begin with page 5 and continue through page 20.

Six Summary Financial Schedules follow the Notes. The summary schedules use the same fund types as the CAFR to present the budgetary information contained within the Detail Financial Schedules. The Table of Contents can be referenced for location of the Summary Financial Schedules.

Three sets of Detail Financial Schedules comprise the majority of the report. The first set of detailed schedules reports current year budgetary transactions by agency, fund, program, and expenditure object. The second set of detailed schedules reports current year budgetary transactions by agency, program, and expenditure object. The third set of detailed schedules, showing appropriations and expenditures related only to prior year encumbrances, is organized by Agency, Fund, and Program.

The Appendix, Detail of Summary Schedule Fund Types and Fund Names (pages 481-482), provides a crosswalk from the summarized funds and fund titles shown in the Summary Financial Schedules (pages 23-34) to the individual funds and fund titles in the Detail Financial Schedules (beginning on page 37).

The Alphabetical Index to the Detail Financial Schedules (pages 485-488) lists all state agencies alphabetically. For example, if you want to learn how the Office of the State Controller spent its 2003 appropriations, look down the first column until you find “Controller, Office of the State,” referring to pages 52 and 287 of the Detail Financial Schedules, where “STATE CONTROLLER – 140” appears. Number 140 is the official state agency identification number for the Office of the State Controller.

### **Tips for Using the Report**

1. Begin by reading the Notes. It is strongly suggested that you refer back to the Notes after you have reviewed a particular financial schedule.
2. Use the Alphabetical Index to the Detail Financial Schedules (pages 485-488). If you want to check on a particular agency, the index will tell you the page number(s) in the Detail Schedules where you can find information about that agency.

To: The Honorable Dirk Kempthorne, Governor  
Members of the State Legislature  
Citizens of the State of Idaho

I am pleased to present the fiscal year 2003 Legal Basis Financial Report of the State of Idaho. The intent of this report is to provide the reader with a comprehensive and summarized view of the appropriations and expenditures of the State government for fiscal year 2003 from a budgetary perspective. Responsibility for data accuracy, completeness, and fairness of the presentation, including all disclosures, rests with the State Controller.

This report is presented in two sections—introductory and financial. The introductory section contains the reader's guide, a table of contents, this transmittal letter, and a list of Idaho's elected officials. The financial section includes the Legislative Services Office report, notes to the financial schedules, summary financial schedules, detail financial schedules, an appendix with detail of summary fund types and fund names, and an alphabetical index to the detail financial schedules.

The report has been reviewed by the audit staff of the Legislative Services Office but has not been fully audited in the same manner as the Comprehensive Annual Financial Report (CAFR). It has not been prepared in accordance with generally accepted accounting principles (GAAP) because only actual appropriations and expenses are included and no accruals were made. Disclosures have been included to enable the reader to gain an overview of the State's budgetary process and the results of operations using the budgetary basis of accounting.

Respectfully submitted,

Our review was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion on the legal basis financial schedules. Accordingly, we do not express such an opinion.

As described in Note 1, these financial schedules were prepared on a budgetary basis of accounting prescribed by Idaho Code and appropriate session law chapters, which is a basis of accounting other than generally accepted accounting principles. The prescribed basis of accounting is a cash basis modified by recognition of encumbrances.

Based on our review, nothing came to our attention that caused us to believe that the accompanying legal basis financial schedules are not presented fairly in all material respects based on the budgetary basis of accounting as described in note 1.

Very truly yours,

### **Notes to the Financial Schedules – Budgetary Basis**

*For the Year Ended June 30, 2003*

---

#### **NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING/BUDGETING POLICIES**

The accompanying State of Idaho financial schedules present information maintained in the appropriation file of the Statewide Accounting and Reporting System (STARS) as of June 30, 2003, for the year then ended. The appropriation file is based on the budgets of the State. Budgets are prepared in accordance with *Idaho Code*, Title 67, Chapters 35 and 36, utilizing the cash basis of accounting and recognizing encumbrances as a reduction of spending authority. This basis of accounting is not in accordance with generally accepted accounting principles (GAAP).

##### **A. Reporting Entity**

For financial reporting purposes, the State of Idaho includes all departments, agencies, boards, commissions, and other organizational units that receive an appropriation from the Idaho State Legislature.

##### **B. Overview of Budget Process**

In the fall of each year, state agencies submit requests for appropriations to the Governor's Office, Division of Financial Management, and the Legislative Service Office, Budget and Policy Analysis, so a budget may be prepared for the upcoming legislative session. The budget format is generally by agency, fund, program, and object. The budget presentation includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

In January and February, the Governor's budget recommendations are presented to the Legislature for review, change, and preparation of the annual appropriation acts for the various agencies. While the State does not formally adopt a revenue budget, the Legislature enacts annual expenditure appropriations (budgets) for the General Fund, most special revenue funds, the Endowment Earnings Fund, internal service funds, enterprise funds, most pension plans, and college and universities' current and endowment funds. Both houses of the Legislature must pass the appropriation acts by a simple majority vote. Appropriation bills become the State's authorized operating budget upon the Governor's signature or, if allowed, become law without the Governor's signature through passage of time.

As defined in *Idaho Code*, Section 67-3508(a-d), except as expressly approved, all appropriations made by the Legislature and all expenditures made from appropriations are recorded as one of the following expenditure classifications or objects:

**Personnel Costs**—*Idaho Code*, Section 67-3508(a), defines personnel costs as costs that include salaries or wage expenses of employees and officers, whether full-time, part-time, or other irregular or seasonal help and includes compensation or honorarium of members of boards or commissions, and the employer's share of contributions related to other benefits provided to employees and officers.

**Operating Expenditures**—*Idaho Code*, Section 67-3508(b), defines operating expenditures as all expenses for services, travel, consumable supplies, and minor items of equipment not otherwise classified under personnel costs, capital outlay, or trustee and benefit payments.

**Capital Outlay**—*Idaho Code*, Section 67-3508(c), defines capital outlay as all expenditures for land, highways, buildings including appurtenances, fixtures and fixed equipment, structures, which also includes additions, replacements, major repairs and renovations, and compensation for independent contractors, which materially extends the capital assets useful life or increases its capacity. Also included are automobiles, domestic animals, machinery, apparatus, equipment,

and furniture that have a useful life of more than two years.

**Trustee and Benefit Payments**—*Idaho Code*, Section 67-3508(d), defines trustee and benefit payments to include cash payments of welfare or retirement benefits to individuals and payments to individuals, persons, or political entities that are not otherwise classified under personnel costs, operating expenditures, or capital outlay.

Appropriations are also classified by program. A program is a major activity or service provided by an agency.

The following is an example of how funds are appropriated in the State of Idaho. This appropriation is for the Office of the State Controller for fiscal year 2003.

I.	ADMINISTRATION:	
	From:	
	General Fund	\$ 450,500
II.	STATEWIDE ACCOUNTING:	
	From:	
	General Fund	\$ 2,814,400
III.	STATEWIDE PAYROLL	
	From:	
	General Fund	\$ 2,275,500
IV.	COMPUTER CENTER	
	From:	
	Data Processing Services Fund	<u>\$ 6,275,600</u>
	GRAND TOTAL	<u>\$11,816,000</u>

The appropriation for the Office of State Controller for fiscal year 2003 did not identify amounts by expenditure object. Four programs were specified and the funds for those programs are shown under each program. The State Controller also received a reappropriation of the unexpended and unencumbered fiscal year 2002 appropriation to be used for nonrecurring expenditures between July 1, 2002 and June 30, 2003.

Normally, unencumbered appropriations lapse on the last day of the fiscal year for which they were appropriated. At fiscal year end, unexpended appropriation balances may: 1) revert to unreserved fund balances and be available for future appropriations, 2) be reappropriated as part of the spending authority for the future year, or 3) be carried forward to subsequent years as outstanding encumbrances with the approval of the Division of Financial Management. Encumbrances outstanding record purchase orders, contracts, and other commitments at fiscal year end as reservations of the appropriation for expenditures in subsequent years.

Budgetary controls are incorporated into STARS. Control is maintained at the agency, fund, program, and object level or as otherwise written in the original appropriation acts. The appropriate department must certify that expenditures are for a purpose intended by law. For funds that are annually appropriated, STARS performs various edits to ensure that expenditures do not exceed authorized appropriations. Expenditures cannot exceed appropriations unless specifically authorized by *Idaho Code*; thus, legal compliance with the budget is assured.

## *State of Idaho*

### **Notes to the Financial Schedules – Budgetary Basis**

*For the Year Ended June 30, 2003*

---

Original appropriations may be modified in the following ways:

1. **Supplemental**—Agencies may ask the Legislature for an additional (supplemental) appropriation for the current fiscal year. Supplemental appropriations also include amounts appropriated for the following fiscal year that can be used early due to an emergency. In some cases the Legislature may deem to rescind (reduce) spending authority from the original appropriations. This action is considered a "negative" supplemental.
2. **Object Transfers**—*Idaho Code*, Section 67-3511(1), allows agencies to transfer spending authority between objects within a fund and program, with the following exceptions: Appropriations for the personnel costs object may be transferred to other objects, but appropriations for other objects may not be transferred to personnel costs. Appropriations for the purchase of capital outlay items may not be used for any other purpose per *Idaho Code*, Section 67-3511(3); however, appropriation for other objects may be transferred to capital outlay. The Board of Examiners must approve object transfers.
3. **Program Transfers**—*Idaho Code*, Section 67-3511(2), allows agencies to transfer spending authority from one program to another within an agency, provided the requested transfer is not more than 10 percent cumulative change from the appropriated amount for any program affected by the transfer. The Division of Financial Management and the Board of Examiners must approve these transfers. Transfers above 10 percent cumulative change must be approved by the Legislature. Appropriations cannot be transferred from one fund to another fund unless expressly approved by the Legislature.
4. **Board of Examiners Reduction**—*Idaho Code*, Section 67-3512, allows the Board of Examiners to reduce appropriations upon investigation and report of the Division of Financial Management.
5. **Governor's Holdback**—*Idaho Code*, Section 67-3512A, allows the Governor to reduce spending authority in the event the expenditures authorized by the Legislature for the current fiscal year will exceed anticipated available cash. This normally occurs due to a revenue shortfall. The Governor may restore the spending authority, which was temporarily reduced, to its original level.
6. **Non-cognizable**—*Idaho Code*, Section 67-3516(2), allows the Division of Financial Management, with Board of Examiners approval, to increase the spending authority when funds other than state funds become available (i.e., funds that were not known about or the amounts that could not be determined at the time appropriations were made).
7. **Receipts to the Appropriation**—*Idaho Code*, Section 67-3516(2), allows the Division of Financial Management to increase spending authority for the proceeds from the sale of capital outlay items or insurance proceeds related to capital outlay items. The additional appropriation must be spent for the replacement or repair of capital outlay items.

#### **C. Reappropriations**

Reappropriations are granted at the discretion of the Legislature and permit agencies to carry forward any unexpended appropriation balances to the next fiscal year. The following schedule shows, by agency and fund, the reappropriation amounts carried forward from fiscal year 2002 to fiscal year 2003:

### **Notes to the Financial Schedules – Budgetary Basis**

#### **D. Lump Sum Appropriations**

At the discretion of the Legislature, an appropriation may be made without respect to program or object within a fund. These types of appropriations are considered “lump sum.” Although an agency may choose to allocate the appropriations to programs and objects for management and reporting purposes, the appropriation is not restricted in that manner and is spent as the agency deems necessary. In the Schedules of Appropriations and Expenditures, this type of appropriation is noted and "No Object" is displayed if the agency did not choose to record it otherwise.

#### **E. Deficiency Warrants**

As authorized by *Idaho Code* and approved by the Board of Examiners, deficiency warrants may be written on certain funds even though an appropriation or cash is not sufficient to cover the expenditure. When this occurs, requests are made during the next legislative session by the appropriate agencies for legislative appropriation sufficient to cover the existing deficit and estimated current year expenditures. The following funds may have deficiency warrants: Fire Suppression, Hazardous Substance Emergency Response, Idaho State Police Peace Officer Benefit, Special Pest Eradication, and Livestock Disease Control. Upon approval of the appropriation request, cash transfers are made from the General Fund to the individual funds. At June 30, 2003, the Hazardous Substance Emergency Response (page 77), and Special Pest Eradication (page 100) funds had deficiency warrants outstanding in the amounts of \$20,958 and \$93,956, respectively.

#### **F. Continuous Appropriations**

Throughout *Idaho Code*, the Legislature has established continuous (also referred to as perpetual) appropriations for certain funds and programs. Generally, no annual amount is determined during the legislative session for these appropriations. Therefore, no appropriation amount is entered in STARS, and the funds are controlled by cash balance. These appropriations are considered annual appropriations, and expenditures are allowed to the extent cash is available.

#### **G. Legislative Appropriations**

The schedule on the following page shows, by fund type, the original appropriations, prior year reappropriations, and supplemental appropriations. The total legislative appropriation column consists of the sum of these appropriated amounts for fiscal year 2003:

**NOTE 2. RECONCILIATION OF GENERAL ACCOUNT APPROPRIATIONS**

Certain amounts related to the General Account appropriations are not clearly identifiable in the Legislative Appropriation Schedule. The total General Account legislative appropriation of \$634,854,522 shown on the Schedule of Legislative Appropriations does not include all of the General Funds used for State operations. In some appropriation bills, the Legislature transfers general funds to other funds within the agency and appropriates spending authority from the other fund. For example, the Department of Health and Welfare receives a General Fund appropriation that is transferred to the Cooperative Welfare Fund. The Legislature appropriates spending authority for the Department from the Cooperative Welfare Fund. The Superintendent of Public Instruction, the Legislature, and some smaller agencies (e.g., State Emergency Response Commission, Governor's Emergency, and Guardian Ad-Litem) are funded in a similar manner from the General Fund.

The following schedule reconciles the total general account appropriations, transfers from the General Account, and other transfers into the General Account to the fiscal year 2003 General Account appropriations:

**NOTE 3. SUMMARY OF THE GENERAL ACCOUNT—BUDGET AND ACTUAL—  
BUDGETARY BASIS**

The schedule on the next page reconciles General Account actual revenues and expenditures for fiscal year 2003 to the unreserved fund balance at the end of fiscal year 2003. The General Account is part of the General Fund and excludes the miscellaneous General Fund accounts. The unreserved fund balance is the amount available for the following year's appropriations. Reconciling items adjust the actual revenues and expenditures for accruals and expenditures that liquidated prior year encumbrances. Budgeted revenues for the General Account represent actual revenues collected, since the State does not adopt a revenue budget. The Total Adjusted Budget column is the sum of the original appropriation, prior year reappropriations, supplemental appropriations, continuous appropriations, non-cognizable funds, and net adjustments. Transfers In include revenues collected by another fund and transferred to the General Account. Transfers Out include cash transferred from the General Account to another fund to be used as expenditures. The variance column shows whether the budget was met or not. As depicted, actual expenditures were less than appropriations by \$29,881,223.

**NOTE 4. BUDGETARY COMPARISON SCHEDULE, BUDGET TO ACTUAL,  
GENERAL AND MAJOR SPECIAL REVENUE FUNDS**

The schedule on the two following pages shows the Budgetary Comparison Schedule, Budget to Actual, General and major special revenue funds from the fiscal year 2003 Comprehensive Annual Financial Report (CAFR). This schedule presents comparisons of the legally adopted budget with actual data for the general and major special revenue funds. Accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with generally accepted accounting principles, which are followed in preparing the CAFR.

The State uses cash-basis accounting records to prepare the State's legally adopted annual budget or legal basis. The legal basis emphasizes accountability and budgetary control of appropriations. The Legal Basis Financial Report demonstrates legal compliance with the budget. On the following schedule, budgeted revenues represent actual revenues collected, since the state does not formally adopt a revenue budget; Original Budget amount represents the original appropriation, prior year reappropriations, and continuous appropriations; and Final Budget amount includes the original budget *plus* supplemental appropriations, Governor's holdbacks, Board of Examiners reductions, non-cognizable funds, object transfers, actual transfers, and receipts to the appropriation. In the Actual Amounts Budgetary Basis column, revenues are generally recognized when cash is received, and expenditures are recorded when the related cash disbursement occurs. Encumbrances are not recognized as expenditures but reduce available spending authority.

Budget to actual nonmajor special revenue funds and permanent funds can be found on pages 90 to 97 within the Combining Financial Statements of the Comprehensive Annual Financial Report.

**NOTE 5. SUMMARY AND DETAIL FINANCIAL SCHEDULES**

The Legal Basis Report presents six schedules that summarize budgetary information contained within the Detail Financial Schedules by fund type as reported in the Comprehensive Annual Financial Report (CAFR). The first three summary schedules are shown by fund type at the program (major activity) level. The first schedule of this group, Summary Schedule of Current Year Appropriations and Expenditures, shows legislative appropriations and expenditures for the current year. The next schedule, Summary Schedule of Prior Year Encumbrances and Expenditures, shows prior year encumbrances and expenditures. The last schedule in this group, Summary Schedule of Current Year Appropriations and Expenditures Including Prior Year Encumbrances, combines current year appropriations and prior year encumbrances and compares them to actual expenditures. Prior year encumbrances may include encumbrances carried forward for several years. The last three summary schedules are shown by fund type at the object (expenditure classification) level, and are organized in the same manner as the schedules shown by program, i.e., current year appropriations, prior year encumbrances, and combined current year appropriations with prior year encumbrances.

In order to present a comprehensive record of appropriations, the Legal Basis Report includes three entities that are outside the State's primary government, as defined by GASB 14. These entities are shown as separate line items and funds. The Public Health Fund amounts are for appropriations made to the Health Districts of the State. The State Insurance Fund received a continuous appropriation for fiscal year 2003. The Petroleum Clean Water Trust Fund, a component unit of the State, also received a continuous appropriation for fiscal year 2003.

An appendix (beginning on page 481) shows a crosswalk from the summarized funds and fund titles shown in the Summary Financial Schedules (pages 23-34) to the individual funds and fund titles in the Detail Financial Schedules (beginning on page 37).

The three Detail Financial Schedules provide information at the agency level. To locate information about a particular agency, look in the Alphabetical Index to the Detail Financial Schedules on pages 485-488. The index lists the pages within the detail schedules that have data for a particular agency. The Schedule of Appropriations and Expenditures by Agency, Fund, and Program-Budgetary Basis shows legal compliance with the budget as approved. The Schedule of Appropriations and Expenditures by Agency and Program-Budgetary Basis reflects budgetary and expenditure information without regard to funding sources. The Schedule of Prior Year Encumbrances provides information regarding prior year encumbrances and the related expenditures. Encumbrances reserve a portion of an appropriation for legal or contractual commitments incurred during one year, which will not be paid until future years. *Idaho Code*, Section 67-3521, limits the use of encumbrances.

The amounts contained in the columns on the various schedules are from differing sources depending on the schedule. The following is a description of each column heading by schedule type.

For the Summary Schedules of Current Year Appropriations (pages 23-24 and 27-28) and the Detail Schedules of Appropriations (beginning on page 37):

**Legislative Appropriation**—Includes original appropriation, prior year reappropriations, and supplemental appropriations. Expenditures may be made against these appropriations to the extent cash is available.

## *State of Idaho*

### **Notes to the Financial Schedules – Budgetary Basis**

*For the Year Ended June 30, 2003*

---

**Continuous Appropriation**—Appropriations established by *Idaho Code* as perpetual or continuous. Expenditures may be made against these appropriations to the extent cash is available.

**Non-cognizable**—Funds, other than state funds, that become available during the year and were not known at the time appropriations were made. Authority to spend these funds must be approved by the Division of Financial Management and the Board of Examiners. The majority of non-cognizable amounts are from federal sources. Although the federal funds are anticipated by the State, due to the timing difference between the federal and state fiscal years, exact amounts are not known until after the close of the legislative session.

**Net Adjustments**—All adjustments to legislative appropriations including Governor's holdbacks, Board of Examiner's reductions, object transfers, program transfers, and receipts to appropriations. These adjustments do not require legislative action.

**Total Adjusted Budget**—Sum of Legislative Appropriation, Continuous Appropriation, Non-cognizable, and the Net Adjustments.

**Actual Expenditures**—Total of cash expenditures made during the fiscal year, *excluding* those made for payment of prior year encumbrances.

**Outstanding Encumbrances**—Commitments related to contracts for goods and services that were incurred and established as encumbrances during fiscal year 2003 and had not been paid for as of fiscal year-end.

**Variance**—The Total Adjusted Budget less Actual Expenditures and Outstanding Encumbrances. A positive variance indicates that expenditures and encumbrances were for amounts less than the Total Adjusted Budget amount.

For the Summary Schedules of Prior Year Encumbrances and Expenditures (pages 25-26 and 31-32) and the Detail Schedule of Prior Year Encumbrances (beginning on page 411):

**Prior Year Encumbrances**—The total of outstanding encumbrances established in any fiscal year prior to fiscal year 2003.

**Expenditures**—Amounts actually paid during fiscal year 2003 for prior year encumbrances.

**Outstanding Prior Year Encumbrances**—Remaining balances of prior year encumbrances as of June 30, 2003.

**Variance**—Prior Year Encumbrances less Expenditures and Outstanding Prior Year Encumbrances. If the amount in this column is other than zero, an encumbrance was liquidated for less than the original amount and will show as a positive variance.

---

For the Summary Schedules of Current Year Appropriations and Expenditures Including Prior Year Encumbrances (pages 27-28 and 33-34), the column headings and meanings are as previously described except for the following:

**Legislative Appropriation**—Amounts shown are the sum of the original appropriation, prior year reappropriations, and supplemental appropriations, plus the prior year encumbrances.

**Actual Expenditures**—Sum of cash expenditures made for the fiscal year, plus expenditures for prior year encumbrances.

**Outstanding Encumbrances**—Sum of outstanding encumbrances from prior years plus any outstanding encumbrances for the current year.

**NOTE 6. EXPLANATION OF UNFAVORABLE VARIANCES**

During Fiscal year 2003, the following transactions occurred that resulted in unfavorable variances on the Detail Financial Schedules:

Unfavorable variances were the result of deficiency warrants or rounding. Deficiency warrant funds are described on page 9.
