

Sourcing

CURRENT STATE

A limited number of agencies use IPRO to post sourcing events. Other agencies post sourcing events on a website or in a newspaper.

FUTURE STATE

All agencies will be able to use Luma to post sourcing events.

CURRENT STATE

The supplier portal is managed by Division of Purchasing and some agencies also maintain a list of their suppliers in spreadsheets. Suppliers are only able to view sourcing events and the contracts they have been awarded in IPRO.

FUTURE STATE

The supplier portal will be managed by the State Controller's Office. Luma will allow suppliers to view sourcing events and contracts as well as their purchase orders and payments associated with their vendor profile.

BENEFITS

- ★ Luma will be a single source for all sourcing events, offering the state a standardized process that can help manage sourcing events from start to finish.
- ★ Luma will provide suppliers with a single site to review and respond to sourcing events posted by all State agencies.
- ★ Luma will increase employee's visibility to sourcing events across state agencies. This will increase the ability for agencies to combine spend and achieve better pricing for goods and services.
- ★ Luma will increase transparency for agencies to view suppliers and source from them.
- ★ Luma will allow suppliers to submit bids to multiple agencies.
- ★ Luma will offer suppliers the opportunity to submit bids electronically or sourcing managers can enter a manually submitted bid from a supplier.
