

Supplier Portal Go-live: May 5th, 2023

What is it?	The Supplier Portal (IPRO - Powered by Luma) provides suppliers across the state with web-based access to manage their accounts and access information that is relevant to their business.
How does it impact agencies?	Sourcing events will be posted in Luma rather than in Jaggaer. Agencies that currently post notices in periodicals can also use Luma to post notices.
What do agencies need to do?	Encourage Suppliers to register as soon as possible. Please note the following: • If they are doing business with the State at this time they may already have an account
How can Suppliers access the Supplier Portal?	The Supplier Portal will be accessible on the SCO website as well as the Division of Purchasing website. If you have any questions please contact your Agency Advocate.
