

# HR-125 Monitor Employee Health and Safety

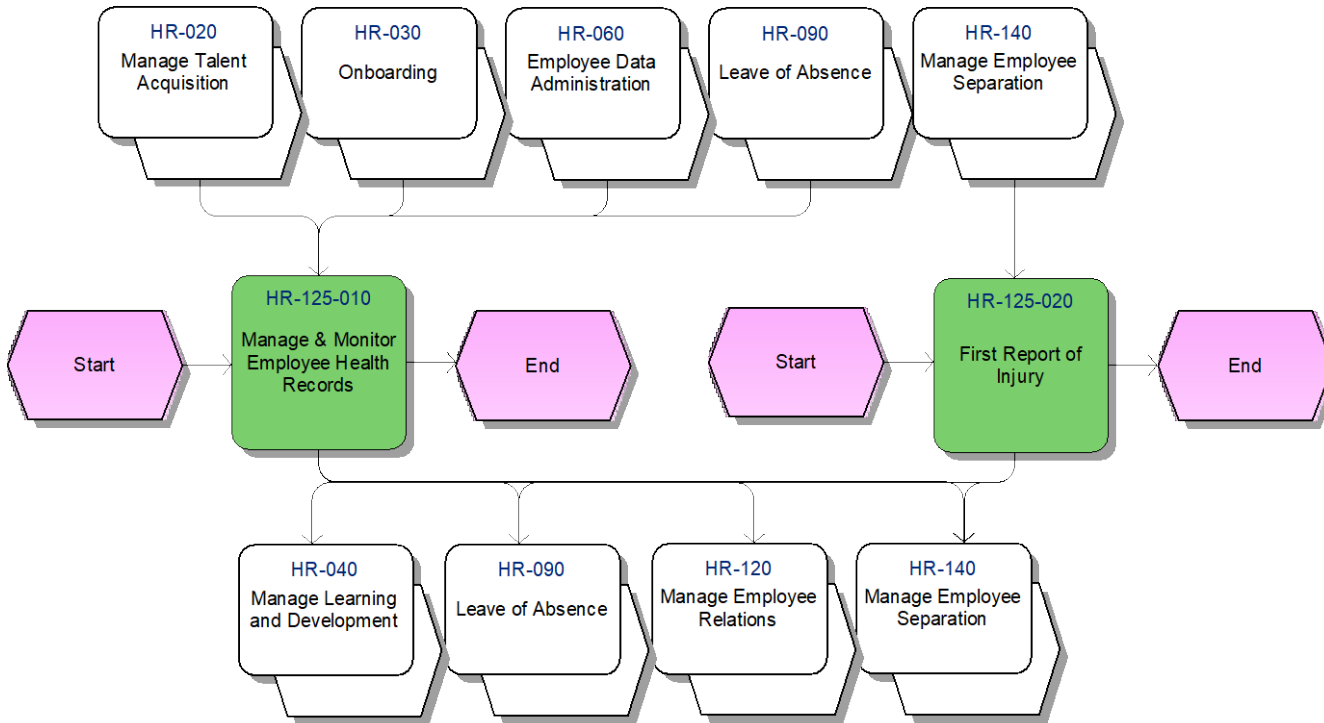

---

HR-125	<u>Monitor Employee Health and Safety</u>	Activities required to support timely compliance with agency health requirements, resolving delinquency in health records by requesting documents from employees (as needed), and to submit a First Report of Injury (FROI) report.
HR-125-010	<u>Manage &amp; Monitor Employee Health Records</u>	<p>Activities required to track an employee's compliance with the agency's health requirements, and when needed, request documents to update the employee's health record.</p> <p>Note, this health record is not the personal health record for the employee, and employees can view their own employer-maintained health records by logging into the application as Employee.</p>
HR-125-020	<u>First Report of Injury</u>	Activities required to initiate a First Report of Injury (FROI), either by the Employee or the Employee's Manager.
